QUIET PACKS

These two packs contain no loud bangs or gratuitously noisy fireworks. However, they are NOT silent; if they were they would be very dull indeed. Instead they are a compromise - we have removed the loudest fireworks while still retaining entertainment value. You can expect crackles and whistles with the occasional not too loud bang where it is necessary to disperse stars, such as rocket bursts.

Sandling Fireworks

WHY SANDLING FIREWORKS?

By buying directly from Sandling Fireworks, an importer and manufacturer, we are sure you will find our prices are unbeatable — you could pay up to 50% more if buying at shop prices! Remember, fireworks are not just for November 5th, Sandling Fireworks are **specialy licensed to sell fireworks all year round**. For almost thirty years we have helped people celebrate birthdays, weddings, anniversaries, etc. See for yourself the quality and value of our fireworks!

WANT TO SEE MORE?

We have one of the largest firework sites on the Internet at www.sandlingfireworks.co.uk. Here you will find extra packs and additional photographs together with video clips of all our fireworks so you can see before you buy.

WHAT TO CHOOSE

Using Sandling packs you can put together a display for any occasion. Most of our garden and display packs are designed to last 20-25 minutes depending on the speed of firing. Any pack can be enhanced by buying additional items from our supplementary range, or you can make up your own display by using just these special packs.

WHEN CAN FIREWORKS BE USED?

Fireworks can be used at any time of year. For garden parties it is a courtesy to notify neighbours of your event. Please avoid using fireworks late at night; it is now an offence to use fireworks after 11pm with the exception of certain dates such as New Years Eve. For larger displays the police and fire service should be notified — they merely need to know. An advice book "Giving Your Own Firework Display - How to run and fire it safely" can now be downloaded free of charge from: www.books.hse.gov.uk

HOW TO ORDER

All prices include VAT. There is a carriage contribution of £18 on ANY sized order regardless of size and number of packs ordered. This means carriage is charged once only, not on every pack you buy. You may pay by cheque, credit or debit card. You may order by post, fax, telephone or online at www.sandlingfireworks.co.uk. The fireworks will be delivered by carrier. When you receive your fireworks please check you have the correct number of cartons before signing and notify us immediately of any shortfalls or damage. Display rockets are packed in wire mesh packing and must be opened carefully before the big night! Please familiarize yourself with the fireworks before the display date and do not hesitate to telephone our office for advice.

OPERATOR FIRED DISPLAYS

Of course you may wish to have an operator-fired display and leave it all to us. Sandling Fireworks are members of the the British Pyrotechnists' Association and The Firework Makers Guild, the CBI Explosives Industry Group and the British Fireworks Association. We have full public and product liability insurance. Our display teams use large display fireworks such as aerial shells that are not available to the general public. Each display is specially designed to suit the occasion. Prices start from a few hundred pounds, depending on the nature of the event and the time of year, to several thousand pounds. Prices include transport, labour and insurance with no extras to pay. Please telephone our office for further details.

STATUTORY NOTICE

IT IS ILLEGAL TO SELL ADULT FIREWORKS TO ANYONE UNDER THE AGE OF EIGHTEEN AND IT IS ILLEGAL FOR ANYONE UNDER THE AGE OF EIGHTEEN TO POSSESS ADULT FIREWORKS IN A PUBLIC PLACE.
